Coronavirus Update

Good afternoon Everett Public School Families,

I hope you and your loved ones are “staying home and staying healthy” and enjoying the great spring sunshine we have been seeing.

With distance learning being extended through the end of the school year, the district is putting into place new learning supports starting **Monday, April 20**. The goal is to provide a more predictable school day experience as your child(ren) continue to adjust to learning in a remote environment. Attached are schedules based on your child’s grade level. There are dedicated times for students to participate in learning, and there are many ways for students to be engaged during these times. These are recommended schedules; we want you to be able to determine the schedule that works best for your family.

Again, these structures start **Monday, April 20**. Please call or email your child’s teacher or principal directly if you have any questions, concerns or need specific support.

We know this is a hard time for many. We strive to provide what you and your students need to make learning at home successful. Would you please take a few minutes to answer a short [parent/guardian survey](#) letting us know how we are doing and how we could do better?

The survey is open now through midnight on Sunday, April 19. Your feedback is most welcome and appreciated.

Thank you and be well,

Dr. Ian Saltzman
Everett Public Schools Superintendent
