Wellness Program Vision and Mission Statement

Trends in school employee wellness

Trend is to see staff and community wellness as an integral part of student health and academic success.

– Alliance for a Healthy Generation

Example: Cherry Creek School District

“The mission of the Cherry Creek School Districts comprehensive wellness strategy is to be the healthiest community in the nation, together with our students, staff and families”.

“The district is intentionally embracing and fostering a comprehensive model of wellness to include physical, psychological and environmental well-being. This speaks to a long-standing commitment to educating the whole child.”

Vision and Mission Statement

Reflective Questions

- What would a ***healthy district culture*** here at Everett Public Schools ***look*** and ***feel*** like to you?
- What are the **benefits** of having a healthy district culture?
- What is the expected **end result** of a healthy district culture? How will you “measure” healthy culture?
