

Locker Combination Instructions:

1. Turn the dial clockwise *more than two complete revolutions*, before stopping at the first number in the locker combination.
2. Turn the dial counter clockwise *more than one complete revolution*, before stopping at the second number during the second revolution.

*Note: You will pass over the second number in the combination once before stopping on it the next time.

3. Turn the dial clockwise *until you arrive at the third number*. Lift the locker handle.
