

## Cause and Effect: More Practice (Day 3)

### Teacher Page

Answers:

Cause	Effect
1. Some fish clean fungi and bacteria from teeth of larger fish	Those fish are described as doing work of dentists
2. Wind carries smog to remote areas	Some days smog in the Artic is similar to that of smog in Los Angeles
3. Sun never drops below the horizon on the first day of summer	The North Pole has 24 hours of sunlight
4. Wetland areas soak up rainwater like a sponge	Wetlands provide water storage and flood protection
5. The Everglades was dammed and drained	Wildlife was devastated
