

Elementary Music Classroom Based Performance Assessment

Student Instructions:

- You will create a two measure/eight beat composition that uses the notes B, A, G and low E.
- Each measure must contain four beats.
- You will write the composition on the paper provided and end on G or E.
- You may choose from the note values below and remember that what you write is what you will be expected to play. Keep it simple!
 - Quarter Note
 - Eighth Note
 - Half Note (one time only)
 - Quarter Rest (one time only)
 - Sixteenth Notes
- The entire class will play the two measures that are already written on your paper. You will take your turn and play your two measures alone.
- Remember to make good choices about the rhythms. Take your time to write each note clearly so you can be successful when you play.
