

# Class Name Here

To be college and career ready, students need to be able to integrate and apply 21<sup>st</sup> century skills, as well as core academic and technical knowledge. Career and Technical Education programs are aligned with rigorous industry and academic standards. The State of Washington has incorporated the 21<sup>st</sup> Century Leadership & Employability Skills Standards, developed from *Partnership for 21<sup>st</sup> Century Skills* organization, within the Career and Technical courses. The 21<sup>st</sup> Century Skills Standards adopted by the State, focus on creativity, critical thinking, communication and collaboration. These standards are essential to preparing students for complex lives and work environments in our global economy.

Everett Public Schools' Career and Technical Education has developed a program, aligned with the State standards, to provide opportunities for students to be assessed on the 21<sup>st</sup> Century Skills State Standards. In the Business Pathway, this is accomplished through assessments recommended by the Office of Superintendent of Public Instruction (OSPI). OSPI has cross-walked resources provided by the student organization, Future Business Leaders of America (FBLA), and other recommended assessments. In addition to these resources, students will be assessed using classroom assessments.

The 21<sup>st</sup> Century Skills Standards students will be assessed on, are assembled into eleven categories. The categories include:

Creativity and Innovation	Flexibility and Adaptability
Critical Thinking and Problem Solving	Initiative and Self-direction
Communication and Collaboration	Social and Cross-Cultural Skills
Information Literacy	Productivity and Accountability
Media Literacy	Leadership and Responsibility
Information, Communication and Technology Literacy (ICT)	

The grading scale used for assessing students is as follows:

- 4 = Exceeds Standard
- 3 = Meets Standard
- 2 = Worked toward meeting standard, but did not complete
- 1 = Made an attempt to meet standard, but did minimal work
- 0 = Did not attempt to meet Standard

Each student is responsible for tracking and maintaining their score for the 21<sup>st</sup> Century Skills Standards for the course. Below is a listing of the Standards for the course and what assessments are available for demonstration of meeting or exceeding the standard throughout the semester. There are multiple opportunities for students to demonstrate their skills. It is up to the student to choose the activities that best fit **their** schedule/needs/interest and to collect the signatures DURING or IMMEDIATELY following the assessment.

## **Descriptions**

**Ultimate Leadership Tour:** Washington State FBLA Leadership Program. Provided by Washington State FBLA for local chapters to learn about leadership and apply to their own lives and community.

**Chapter Recruitment Activities:** National FBLA provides recruitment tools, lessons and activities for members to learn skills in communication, presentation and innovation. Each year, National FBLA provides a new theme for recruitment along with ideas and suggestions on how to get started on recruitment. The program challenges chapter members to set goals, create programs of work and reflect on their activities.

**Institute for Leadership:** Multiple day conference that provides an opportunity for members to learn how to become a synergy-builder, master the art of delegation, develop a personal brand, public speaking skills, powerful interpersonal and communication skills. Students will also recognize the value of a diverse team, setting goals with a Vision Development System, and the importance of career path opportunities, developing accountability systems, an understanding of business ethics and improving their creative problem-solving skills.

**Pro Sports Career Days:** This event provides students an opportunity to see the business side of one of the fastest growing industries. Students hear from multiple speakers about the industry, on topics such as how to penetrate the market. It includes a tour of facilities and a chance for answer and questions session.

**FBLA Week:** Chapters are encouraged to use this time to publicize their activities and successes, boost their membership, and gear up for their spring activities. In addition, FBLA-PBL recognizes the Wednesday of this week as Adviser Appreciation Day. Members are encouraged to use this day to pay special tribute to the dedicated individuals who make the association possible on the local level. Many chapters plan special activities for each day of the week. This week provides students an opportunity to learn a variety of skills utilized in professional careers. This is accomplished through the activities necessary to complete the event. Activities should include promotion within the school and the community using multiple forms of media.

**Program of Work:** Designing and maintaining a chapter's program of work is an excellent tool to utilize in learning and assessing skills. Students and advisors work together to prioritize the needs of the local chapter and determine the who, what, when, where of each area of focus. At chapter meetings, each focus is addressed and assessed for status and future goals and needs.

**Washington State Business Leadership Competitive Events:** FBLA is committed to facilitating the transition of its members from their educational development into their career path. The competitive events program plays a central role in delivering this commitment. The program allows members to

demonstrate and validate their mastery of essential business concepts, skills, and knowledge. The Washington State FBLA Business Leadership Competitive Event Guidelines have been correlated with the Business Education Curriculum Standards published by the National Business Education Association (NBEA). Each event's specific guidelines indicate specific standards measured through that competition
