3:30 Trends – what is the occupational outlook in your field?

Skills such as global literacy, computer literacy, problem solving, critical thinking, creativity, and innovation have become critical in today's increasingly interconnected workforce and society--and technology is the catalyst for bringing these changes into the classroom. What might this look like within our different program areas

3:40 If part of CTE's vision is to better prepare students for a “family wage job”, what would that look like?

- A family wage is not a middle-class income.
- Where are the future family-wage jobs in Snohomish County?
- What level of preparation does it take to get a family-wage job?

3:50 How can CTE be used as a change agent in reshaping the American workforce?
