

**Technology Advisory Committee  
Everett High School, B218  
February 12, 2008 - 5 – 6:30 p.m.**

**5:00 Welcome**

**5:05 New state legislation for high school math graduation requirements (Maggie)**

**5:25 Student recognition** – Discuss ways to integrate a program that recognized students for their achievements. This program could be quarterly or each semester. How can advisory leaders be a part of recognizing student success?

One idea is to offer certificates of proficiency to students who earn a B or better. Is this an adequate measure or are there examples from industry that would be more appropriate?

**5:50 Program growth and marketing** – Discuss ways to grow the drafting and design program. What are staff and students doing to showcase the drafting and design program? Are there other ways that can be added?

**6:10 Student Intern Opportunities** – What opportunities are there in the community to provide internships for students?

**6:30 Adjourn**

**Upcoming meeting: April 22, 2008**
