

# Service Event

Service events are a great way to start change in your school, community and/or neighborhoods. In your responses below think about how/what type of event would be most beneficial to your school or larger community.

Question:	Response:
In what ways might our service event help to get us started on the road to changing things for the better in our school, community, and/or neighborhood?	
How might the money we raise during our service event "serv-a-thon" help us continue making some of these changes for the better?	
Why might it be important that we each support an idea for change even though that particular idea may not be in our personal top five?	
Describe an idea for a service event you could plan for your school. What will be the overall goal for the event & describe why you chose this event.
