

You should be posting at the completion of each action plan item from your Culminating Project Proposal AND any other important events or thoughts that occur. Your posts are meant to reflect on a specific part of your action plan in detail. Also, remember you are communicating with an audience, so make sure you check your posts for spelling, grammar and punctuation errors. You want your audience to *want* to continue to read, so write to your audience.

 Add New Post

 Add New Post

Include the following in your post:

1. What you did (action item from culminating project proposal action plan)
2. What you learned (from completing the action plan item)
3. How much time it took (to complete the action plan item)
