

**Friday Report:** February 21, 2014

**Subject:** Everett Career Expo Event at Boeing

**Strategic Target:** 1.2b, 5.4a

**Date Submitted:** February 18, 2014

**Submitted by:** STEM Leadership Team

Thursday February 20<sup>th</sup> 2014 from 10:00 a.m. to 1:00 p.m. Cascade High School's robotics team will be displaying and demonstrating their two robots, "Harold" and "Milton" in the Boeing cafeteria (40-92 building). The event is very much like a prolonged pit ambassador event, where students will be promoting ["For Inspiration and Recognition of Science and Technology"](#) (FIRST), FIRSTWA, and the need for volunteers. Students will be explaining the program, their participation, showing off the robot and answering questions. Some of the team needs this year are to recruit volunteers and judges.

This year the team increased from 4 major events to 10 district events. That is an increase of 250%! The team did not increase their volunteer pool by 250%, so they have some work to do. After the event is over the students will be treated to a VIP factory tour of Boeing.
