The Office of Superintendent of Public Instruction (OSPI) has endorsed [Precision Exams](#) as a national testing provider which offers end of course skill certificate exams for a wide variety of Career and Technical Education (CTE) STEM programs and courses. These exams will satisfy the industry certification indicator for Perkins and the Vocational P210 report. Teachers can also use these exams as a pre and post test to measure student growth although each pre-test and post-test will cost \$2.50.

Precision Exams provides CTE STEM programs assessment solutions built for large-scale, state-wide implementations, including over 150 Career Skill Exams and Certifications. Precision Exams' solutions are delivered through a streamlined, easy-to-use, 100% online exam delivery system, providing instant online reporting, complete data analytics, and full exam development and maintenance services
