Subject: Articulation Agreement with Everett Community College

Strategic Target: 1.2b, 5.4a

Date Submitted: April 15, 2014

Submitted by: CL Fender

I have recently signed another articulation agreement between Everett School District and Everett Community College for Graphics 240. This agreement currently fits within our CTE 345/346 Web Design I course and the Career Pathway: multimedia/web design and the Career Cluster: arts/audio/video technology and communication. Students who have achieved the level of knowledge, skills and competencies required for the college equivalent with a grade of B or better will be granted 5 college credits.

Currently within the CTE area there are a total of 24 challenging course options with articulations for students to receive college credit while still in high school. We have 18 courses that are articulated for Tech Prep college credit, 2 courses that are college in the high school with one pending, and 4 courses that are AP.
