Subject: Washington Alliance for Better Schools Celebration

Submitted by: STEM Leadership Team

Strategic Target: 1.1b, 1.1c, 1.2a, 5.4B

Washington Alliance for Better Schools (WABS) held "A Celebration of STEM" event at Museum of History and Industry (MOHAI) on Tuesday evening May 6, which featured participants in the WABS STEM Fellows & Externship Experiences program. Institute for Systems Biology (ISB) was a community/industry partner in helping to launch the fellowship and externship program. Currently Everett Public Schools has four teachers involved with the WABS Fellows program this year, last year we had two and this coming year we will have four involved. We also have four teachers in the WABS Externship, last year we had four and this coming year there will be four as well. This event was well attended with teacher's administrators and industry
